Profile

- **Accomplished Odoo Developer** with over 2 years of experience in Odoo development, customization, implementation, and functional training, consistently delivering tailored solutions that align with client objectives.
- **Skilled in developing scalable web solutions**, with a strong track record of delivering high-quality code, optimizing system performance, and ensuring timely project completion.
- **Committed to ongoing professional development**, with a proactive approach to staying updated on the latest Odoo advancements and industry trends to continually enhance solution quality and drive business growth.

Skills

- Odoo development: Proficient in Odoo framework (**Versions 13,14,15,16,17,18**), module development, and customization.
- Programming: Strong expertise in **Python, JavaScript, XML, PostgreSQL, and QWeb**
- Front-End Technologies: **OWL Framework**, HTML, CSS, Bootstrap, and jQuery for UI customization.
- API integration: Experience integrating Odoo with third-party services.
- Version Control: Proficient in **GitHub, GitLab**.
- Odoo implementation: End-to-end Odoo implementations, including user training, requirements gathering, and performance optimization.
- Data Migration: Expertise in data migration.
- Odoo deployment: Experience with **Odoo.sh, Odoo Online, and on-premise setups on AWS and Azure**.
- Strong functional knowledge in **Sales, CRM, Inventory, Accounting, Purchase, Website, POS, E-commerce, Manufacture**.

Experience

Odoo Developer - Odoo-Techno functional Consultant, Cybrosys Technologies – July 2022 - Present
Calicut, IN

- **Installation and Configuration:** Proficient in deploying and configuring Odoo environments on Odoo.sh, Odoo Online, and on-premise setups (AWS, Azure).
- **Odoo Versions:** Extensive experience working with multiple versions, including Odoo 13, 14, 15, 16, 17, and 18, ensuring seamless transitions and upgrades
- **Implementation and User Training:** Led end-to-end Odoo implementations, including requirements gathering, module customization, and conducting functional training sessions for users to maximize system adoption.
- **Customization:** Specialized in customizing modules for Sales, Purchase, Accounting, Inventory, POS, Website, CRM, E-commerce, and Project Management to meet specific client requirements.
- **Full-Stack Development:** Conducted both front-end and back-end development to enhance user experience and optimize business processes.
- **Data Migration and Integration:** Managed data migration from legacy systems and integrated Odoo with third-party applications to streamline workflows.
- **Performance Optimization:** Implemented best practices for Odoo performance tuning, resulting in improved system efficiency and reduced response time.
- **Technical Documentation:** Created and maintained comprehensive technical documentation for customizations, configurations, and system architecture.

Django intern Intern, Bluegen Solutions – April 2021 – May 2021
Calicut, IN

- **Training in Python and Front-End Technologies:** Gained hands-on experience in Python programming, along with front-end technologies such as HTML, CSS, and JavaScript.

- **E-commerce Website Development:** Designed and developed a fully functional e-commerce platform, incorporating payment gateway integration and delivery tracking features to enhance user experience and operational efficiency.

Education

University of Calicut, BSC in Computer at Science at Amal College Of Advanced Studies

June 2019 – April 2022

Projects

Client Project

- **Module Customization:** Customized core Odoo modules (Sales, Purchase, Inventory, Accounting, CRM, Manufacturing) to align with client business processes.
- **Workflow Optimization:** Modified default Odoo workflows to enhance operational efficiency and streamline process transitions.
- **Report Customization:** Developed customized Odoo QWEB reports and excel report creation
- **Custom Models and Views:** Designed and implemented custom models and views with Python and XML to enhance user experience.
- **Dynamic Reporting:** Enabled real-time data analysis and visualization through dynamic report generation features.
- **Dynamic Dashboards:** Created interactive dashboards using OWL framework for comprehensive data insights.

Client Project

- **Website Customization:** Tailored Odoo website themes and developed custom pages using HTML, CSS, and JavaScript.
- **Dynamic Snippets:** Created dynamic snippets for easy website content updates.
- **Payment Integration:** Integrated secure payment gateways.
- **360-Degree Product View:** Implemented 360-degree product views to enhance the online shopping experience.

Barcode for Community

- Developed a barcode module for Odoo Community using the OWL framework, enhancing inventory management efficiency.

Gantt view for Odoo Community

- Created a base module for Odoo Community to implement Gantt view functionality across all models using the OWL framework.

Whatsapp Integration

- Integrated WhatsApp with Odoo, enabling users to send and receive messages from customers via Meta Cloud API.
- Developed WhatsApp flows and templates for efficient ad management within Odoo.
